Agents of Change
and more....*

Headed by Jesper Thomsen and Ilona Pacia, South Kensington based MEWS42 Gallery has established an independent and individual identity that reflects the eclectic, curatorial approach of the directors, who are intimately involved in all aspects of this venture.

Our exhibition program is dedicated to supporting contemporary and emerging artists, unfettered by stylistic or generational genre. We offer a diverse array of thematic and aesthetic concepts, highlighting an exciting approach to contemporary art that is both progressive and thought-provoking.

We also provide an art advisory service, reducing our private and corporate clients' transactional risk by guiding them through the international art market. This includes advice on private sales; auction representation; sourcing and placing works; price discovery; due diligence, and art management services (appraisals, insurance, transport, storage and conservation). We are transparent on pricing, avoid conflicts of interest and appreciate the need for discretion.

Through continued collaboration with artists and organisations, our goal is to continue to celebrate, share, and exhibit contemporary art worldwide.
